

Product: MG

Category: Metallic Hot Foil

Technical Information

Temperatures	150-165°C / 300-325°F, typical clamshell application.
Release Characteristics	Medium.
Coverage	Medium to Large.
Carrier	G-film: 23 Micron (92 gauge) clear polyester film.
Shelf Life	About 3 years if stored at 70-80°F, 50% RH, do not store rolls on its side or in direct sunlight. Foil must be stored away from extreme heat, cold and moisture.

Applications

- Textile Printing with Adhesive, exhibits good wash resistance. Some textile require the application of primer in order to achieve wash resistance.

Data contained in this product spec sheet is provided as a source of information that we believe to be accurate and reliable but does not constitute a warranty of any kind. The operating temperature ranges serve only as a start-up reference. Proper temperature setting will depend on several other application conditions such as type of machinery and tooling, coverage, application speed and pressure, and other factors. Customers should determine to their own satisfaction the suitability of this material for a specific purpose. Ball & Doggett reserves the right to change specifications without notice. Please contact your local Ball & Doggett office for further information about this product.
