Energy

Carbon Neutral Manufacture: Sovereign A2 is available carbon neutral by request. The carbon emissions associated in the production and delivery of Sovereign A2 have been neutralised by Climate Positive, through the 'Liaoning Faku Heping wind power project'. This includes all life cycle phases from 'cradle-to-grave'. More information is available on request.

Water, Air & Waste

Water: Mill operates a waste water treatment system. More information is available on request.

Air: Mill operates a procedure that continually seeks to improve & reduce air emissions.

Additional Information

Hansol only purchase wood from sustainable forestry practices. They do not use pulp that has been derived from virgin forest mixed tropical hardwood. Hansol continuously seek to save energy and to protect their environment. For more details on Hansol Paper and their environmental goals, please contact the Ball & Doggett marketing department.

Congratulations on making an environmentally responsible paper choice.
If you would like to include a product attribution statement on the back of your work, please submit your request to marketing or contact your sales representative.
