

Envirocore Board

- Produced in NSW, Australian made
- The core is manufactured from reusable, renewable and 100% recycled paper, making it a sustainable solution
- Closing the loop from manufacture to end of life, the product is 100% recyclable and can be placed in any paper/cardboard recycling bin
- Excellent printable surface on both sides
- Available in two finishes - white and kraft
- Fabricated from recycled paper based material - sliced into strips and glued together to form a pattern of hexagonal cells to create a rigid core panel.
- Positioned economically and supports an environmental alternative grade over foam and PVC foam boards
- Printable on UV inkjet and Latex technology
- Applications: exhibition stand build, POP display, furniture build, shop fittings and mounting boards
