

Curious Collection

Curious Collection pushes the boundaries in every direction – colour, touch and visual effects – to open daring new creative avenues in print and packaging design.

Distributed By Ball & Doggett

Extraordinary papers with saturated
colours and unusual textures, in **4**
unique surfaces.

Metallics

A natural wove surface and a palette from deepest black to pastel shades enhances shimmering metallic lustre of Curious Metallics.

Matter

With the silky texture of fine sand, Curious Matter is a beautiful contradiction whose matt surface comes in colours from muted to saturated.

Skin

In its sensual touch and matt visual effect, Curious Skin offers pleasure for the fingertips as well as the eyes, while remaining resistant to rubbing and fingermarks.

Transluents

Layering the clear, deep, pale or iridescent colours of the Curious Transluents range generates countless creative options.

B&D

Curious Metallics

A natural wove surface and a palette from deepest black to pastel shades enhances shimmering metallic lustre of Curious Metallics.

High
Quality

Each Curious Metallic sheet is the result of a sophisticated harmony between a unique shimmer pigment and the natural wove surface of the paper:

- Subtle metallic shine : Irregular paper surface, uneven metallic effect pigments (MEP) distribution & light coat-weight
- Differentiated reflectance effects: Mix of different MEP
- Enhanced vivacity of colours: Mix of dyes and MEP in the coating mix

Printing
Reliability

Curious Metallics papers and boards are rough, bulky, with a good resistance to abrasion and designed for Dry Toner & HP Digital Platforms.

Also, the shimmering nature of its surface may be seen through the printing, creating a premium effect application.

Trusted

Curious Metallics is a well establish range and it is the perfect choice for projects across the print and packaging creative ideas that benefit from an added metallic shimmer.

Curious Matter

With the silky texture of fine sand, Curious Matter is a beautiful contradiction whose matt surface comes in colours from muted to saturated.

Innovative
&
Multisensorial

Curious Matter, a tactile
experience like no other.

Its one-of-a-kind sandy yet
silky touch make it unique on
the market.

- At the 1st touch it is very intriguing
and rough
- At the 2nd touch you get addicted
- Then, you start imagining all its
creative applications

Differentiated Colours

Curious Matter has a pallet of 3 rich matt and homogeneous colours:

- The essentials:
Goya White and Black Truffle
- The naturals:
Grey

High
Quality

Rigid and with superior bulk, Curious Matter is available in 270gsm which can be used on multiple applications:

- Business cards: stand out with a differentiated business card.
- Invitations: it's so heavy and rigid that you can forget the common 4-p folded invitation.
- Brochures: will bring a qualitative finish.

Printing Reliability

The unique texture of the paper is not lost even after applying various printing techniques.

- Protect from humidity and temperature
- Colours: a mock-up is recommended as some intense colours may transfer on other papers
- HP Indigo Certified
- Suitable for Dry Toner Printing platforms

Black Truffle
